IQAir AirVisual Enterprise Dashboard offers an accessible yet highly capable set of tools to monitor, manage, and display your air quality data from anywhere in the world. Becoming an air quality leader is easy:

GET IN TOUCH

## Precisely monitor key air pollutants

with AirVisual Series, the world's smartest indoor and outdoor air quality monitors

## Manage your air quality remotely

with a user-friendly web & mobile dashboard

## Achieve ideal air quality

with air pollution alerts & smart integration with your building management system (BMS)

## Earn trust & credibility

showcasing improved air quality to your stakeholders

AirVisual Enterprise Dashboard is easy to install, easy to use, & easy to maintain

GET IN TOUCH

✓ Real-time AQI, PM2.5, CO2, Temp. & Humidity
✓ Indoor/Outdoor AQI comparison
✓ Air quality analytics
✓ Hassle-free hardware
✓ Data validation using AI Web & mobile dashboard
✓ Air monitor remote control

✓ Pollution alerts
✓ Data security
✓ Long-range Wi-Fi
✓ Devices auto-reboot
✓ API access
✓ Smart control of HVAC & filtration system
✓ Integrated CleanZone SL air purifier

✓ Health recommendations
✓ Widgets & digital signage
✓ Integration with AirVisual App
✓ Indoor/Outdoor air quality map view
✓ Air quality data export
✓ Automated air quality reports
✓ Team permissions management

Accurately track real-time air quality & weather data anywhere around the globe. Monitor key pollutants like PM2.5, PM10, NO2, CO2, & SO2 on a brilliantly simple display. The AirVisual air quality app offers more coverage, stations, and data points than any other air quality app on the market, with over 80,000 sensors giving you the fullest picture of the air quality around you.

Available on Google Play and on the App Store.

Download on the App Store

Download on Google play

### Historical, real-time and forecast air pollution data

Receive detailed figures on key air pollutants in more than 70 countries.

### 7-day air pollution and weather forecasts

Plan your outdoor activities to optimize comfort and health.

### Air quality alert

Get notified when outdoor air quality isn't up to your standards.

### Real-time air quality and weather information

Live global coverage of key air pollution and weather parameter.

### Air pollution news and educational resources

Stay up to date on air pollution current events, medical findings and breaking news.

### Health recommendations

Follow advice to reduce your health risk and exposure to air pollutants.

The AirVisual app combines data sets from over 80,000 sensors from government agencies, crowdsourced AirVisual Series monitors, and satellite imagery to give you the most complete view of air quality in the world.

Available on Google Play and on the App Store.

- Get a clear overview of your local air quality with a real-time web dashboard & live maps
- Effortlessly manage air quality across different rooms and buildings with remote control of all air monitors
- Control multiple account permissions, privacy settings, & data access

Smart AI-driven air pollution alerts and recommendations help you improve your air quality.

GET IN TOUCH

Use air quality reports to resolve air quality issues and achieve healthy air standards required for LEED and WELL certifications.

GET IN TOUCH

Seamlessly integrate with HVAC or HEPA air filtration systems with to our API support. Utilize IQAir's CleanZone SL purifier with AirVisual Pro for automated filtration –without a Wi-Fi connection.

INTEGRATE WITH IQAIR FILTRATION

AirVisual Enterprise provides turnkey data display for digital signage, websites, or apps.

REQUEST A DEMO

- 55+ years of experience developing innovative air quality solutions
- Swiss Made with world-class components
- Tailored air filtration solutions for your environment
- Top-tier customer support to help you achieve your goals
